Professional Summary

Cybersecurity Project Manager with 9+ years of experience leading global automotive security programs. Specialized in ISO 21434, UN R155, ISO 27001, ASPICE, and TISAX compliance with proven expertise in audits, governance, and secure SDLC. Track record of delivering cybersecurity artifacts, managing risk, and driving cross-functional collaboration across German OEM projects. Skilled in NIST Cybersecurity Framework, secure boot, HSM, TARA, and vulnerability management.

Core Skills

Cybersecurity Program Management	ISO 21434, CSMS, Risk & Compliance
Governance, Risk & Compliance	ISO 27001, TISAX, NIST CSF, UN R155
Cybersecurity Engineering	TARA, CIA, Secure Boot, HSM, OTA
Audit & Certification	ISO 27001, ISO 27017, TISAX, ASPICE, Internal/External Audits
Tools	Jira, DOORS, Confluence, Planview, ALM, CANoe, PTC Integrity

Professional Experience

Magna Electronics | Product Cybersecurity Specialist (ADAS) | Jan 2025 – Present

- Lead cybersecurity strategy & execution for ADAS ECUs across OEM projects.
- Ensure compliance with ISO 21434, UN R155, CSMS lifecycle.
- Support ISO 27001 & TISAX audits including evidence collection and walkthroughs.
- Drive project scoping, resource forecasting, and peer reviews.
- Developed processes and methods as per ASPICE for quality assurance and improvements.
- Prepared training plans and imparted trainings to junior team members.

Mercedes-Benz R&D; India | Senior Security Engineer (Infotainment & Telematics) | Jun 2022 – Dec 2024

- Delivered cybersecurity artifacts (TARA, CSMS) for Type Approval.
- Executed system-level risk assessments & defined mitigations.
- Collaborated with German HQ teams for compliance alignment.
- Managed sprint planning, risk review cycles, and KPI reporting.

Tata Technologies (GKN Automotive) | Senior Software Developer | Feb 2020 – Jun 2022

- Developed secure flashing & hardened bootloader aligned with UNECE R155.
- Worked with OEMs (VW, Renault, Lada) for ECU integration & validation.
- Contributed to ISO 27001/TISAX audit readiness and documentation.
- Coordinated testing and project milestone reviews.

Bosch | System Software Engineer (ADAS Parking Systems) | Feb 2016 – Feb 2020

- Developed ECU diagnostics & Park Assist features under Automotive SPICE SYS.1, SYS.2, and SWE.1 compliance.
- Engaged in architecture reviews & workshops with OEMs in Europe.
- Supported ASPICE & ISO 27001 audit activities.
- Awarded Bronze & Spot Awards for outstanding delivery.

Education

M.Tech. Automotive Electronics – BITS Pilani (2021–2023)

B.E. Electronics & Instrumentation – VTU (2012–2016), CGPA: 9.14

Certifications

SAFe Advanced Scrum Master | Agile Scrum Master | IIT Kanpur – Automotive Cybersecurity | Vector
MICROSAR Security Stack & ISO 21434

Achievements

- Bronze Award (Bosch): Delivered critical software ahead of schedule.
- Spot Award (Bosch): Resolved complex ECU issues.
- Technical Publication (Tata): Published research on solar-powered devices.
